Stand out with our one-of-a-kind feature that lets you add up to 50 social media profiles. Connect across platforms, all with a single tap.

# Problem

In today's fast-paced world, business professionals are always

on the go. Exchanging business cards is still a common practice, but often these physical cards get misplaced or lost.

Additionally, the use of physical cards is not environmentally friendly. Moreover, in the digital age, people expect to be able to connect easily without having to manually input information into their contacts.

# Solution 1

Eco-Friendly: Say goodbye to paper cards. With SSC, you’re saving trees and contributing to environmental sustainability.

## Solution 2

Convenience: Your digital business card is always with you, as long as you have your smartphone. There’s no need to remember to carry physical cards around.

## Solution 3

Never Run Out: You can share your digital business card endlessly, without worrying about running out of cards.

## Solution 4

Easier Follow-ups: When you exchange digital cards via SSC, you can easily connect on social media or via email. This makes follow-ups a breeze compared to manually inputting information.

## Solution 5

Dynamic Updates: Change jobs? Got a new phone number? No problem! Update your SSC card and it’ll be updated for everyone you’ve shared it with.

## Solution 6

Impress with Innovation: A digital business card is impressive and shows that you are up-to-date with the latest technology.

SSC is not just a business card; it’s an innovative tool that makes networking more efficient and effective, and it's a step towards a more sustainable future.
